I'm a Full Stack Web Developer with a Double Black Belt Certification from Coding Dojo and a B.S. degree in Psychology which I am completing part-time this year. My name is David Roberson and I'm interested in the Junior Software Developer position listed on Monster.com.

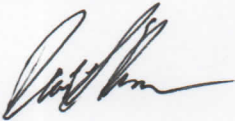

I would be a perfect fit for your team based on my skills and hunger for learning. I recently graduated from Coding Dojo in Seattle, WA with my Black Belt in both the Mean Stack and Ruby on Rails. Through my experience at Coding Dojo and at University I have developed knowledge of a wide variety of programming tools and an ability to learn new information quickly.

I am seeking a position which will allow me to grow my skill set and learn new technologies while contributing to the development of new and better products. I look forward to working in collaboration with groups of people, but I am also able to efficiently achieve goals independently.

I am confident that I will be able to contribute significantly to the position offered. I have experience in HTML/CSS/Javascript/Python among others. Please refer to my resume or my LinkedIn profile for a complete list of skills I have developed.

I look forward to hearing from you. Thank you for your time and consideration.

Regards,

A handwritten signature in black ink, appearing to read 'David Roberson', with a stylized, flowing script.
